Attorney Agreement for Injury Collection Review List

This review list is provided to inform you about this document in question and assist you in its preparation. Personal injury ("PI") cases are very lucrative for attorneys. This document gives the edge to the injured party by limiting the attorney's payment to a fixed sum. When shopping for a PI attorney, consider first comparing offers by the terms of their services. In other words, first negotiate the best terms (e.g., lowest percentage of recovery, and so on) then select the attorney, rather than selecting first and just accepting their contract.
